

WAC 192-510-090 How will the department determine the premium rate for each calendar year? (1) For calendar years s 2021, 2022, and 2023~~and thereafter~~, the total premium rate shall be based on the family and medical leave insurance account balance ratio as of September 30th of the previous year.

(2a) The commissioner shall calculate the account balance ratio by dividing the balance of the family and medical leave insurance account by total covered wages paid by employers and those electing coverage.

(3b) For the purposes of this section, "total covered wages" is defined as the total amount of wages paid to employees that are subject to the paid family and medical leave premium from July 1st of the previous calendar year to June 30th of the current calendar year as reported by employers.

(2) For calendar years 2024 and thereafter, the total premium rate shall be based on the calculation specified in RCW 50A.10.030.

(3) For the purposes of the calculation described in (2) of this section, a small business grant paid to an employer as

specified by Chapter 50A.24 RCW shall be considered a benefit paid.
